**Preamble:**

The project proposal of M/s Brigade Estates and Projects Private Limited to establish "IT/ITES SEZ with an Independent Township" in 25 acres of land at Devanahalli Industrial Area, Bengaluru Rural District with an investment of Rs.1223.36 crore, generating employment to about 26,000 persons was approved in the 24<sup>th</sup> SHLCC meeting held on 24.01.2011. Accordingly, Government Order read at (1) above was issued.

The request of company for change of activity from "IT/ITES SEZ with an Independent Township" to "IT/ITES Park" and reduction in project cost from Rs.1223.36 crore to Rs.475 crore was approved in the 46<sup>th</sup> SHLCC meeting held on 10.02.2017. Accordingly, Government Order read at (2) above was issued.

The company in its request letter dated 22.09.2022 has requested to include "Logistics and Data Centre" activity along with "IT/ITES Park". The reason stated for inclusion of activity is that "the tech companies world over have quickly adapted to the changed scenario in the wake of the Covid pandemic by introducing a hybrid system of employment whereby, at a given time, majority of the employees will be operating remotely. This has widely been accepted as the 'new normal'. However, this has, in fact, significantly brought down the demand for office space and posed a grave challenge to the construction industry. With a view to cope with the impending challenges offered by the 'new normal', we would like to venture into logistic and data centre business and therefore would like to add the same as components to IT/ITES park".

Along with the above amendment the company has also requested for further extension of time by another 5 years

Effective steps taken as per the proposal:

- 1) The company has obtained Possession Certificate No. IADB/AE/19718/31/2020-21 Dated 31.03.2021.
- 2) The company has executed sale deed with KIADB on 29<sup>th</sup> June, 2019.

Now, the Company has requested for the following approvals;

- Inclusion of activity Logistics and Data Centre along with earlier approved activity of Aerospace and Defence Component manufacturing activities along with IT/ITES Park.
- Extension of time for 5 years to implement the project.

**Recommendation of 98<sup>th</sup> LAC meeting held on 13.10.2022:**

The representative of the company appeared before the Committee through V.C and requested approval for inclusion of activity and extension of time.

The Committee noted that the company is requesting for approval of Logistics activity, since the Hi-tech, Defence and Aerospace Park industrial area is a sector specific industrial area and there is lot of demand from manufacturing companies in this industrial area, the Committee decided to not consider the Logistics activity. After detailed discussions, the Committee decided to recommend to SLSWCC for approval of the following;

1. Inclusion of activity Data Centre along with earlier approved activity of Aerospace and Defence Component manufacturing activities along with IT/ITES Park
2. Extension of time by 24 months to implement the project, subject to obtaining building plan approval from KIADB and commencement of construction of building within 6 months.

In the 135<sup>th</sup> SLSWCC Meeting held on 21.10.2022 the proposal was examined & approved.

Government has examined the recommendations of the 135<sup>th</sup> SLSWCC meeting in all aspects.

Hence the following order.
